## Pedigree

## Comment:

A strong influence of Yasumi Doi for good growth with high marbling. Two generations of proven superior marbling ability bull Kitateruyasudo(ETJ003) and Michifuku, set marbling ability while Kedaka influence maintains growth. Brothers of dam Y3004 have recorded outstanding 75% A4-5 carcass results in Japan. Use in fullblood production over large (Group C) females or in F1 joinings over Brahman, Holstein and Angus or add frame and growth with marbling in F2>F6 Angus.
